Southland Tube Incorporated

Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment 2002/95/EC (commonly termed RoHS).

Southland Tube manufactures, to the best of our knowledge, steel tubing that meets the RoHS requirements outlined below. Additionally, none of the hazardous substances listed below are intentionally introduced to the steel tubing during the manufacturing process.

Substance	RoHS Limit (<i>Weight Percent in Homogeneous Material</i>)
Lead (Pb)	0.10%
Mercury (Hg)	0.10%
Cadmium (Cd)	0.01%
Hexavalent chromium (Cr6+)	0.10%
Polybrominated biphenyls (PBB)	0.10%
Polybrominated diphenyl ether (PBDE)	0.10%
Acrylamide	0.10%

Southland Tube, Inc. maintains material safety data sheet (MSDS) information on the products used during the manufacture of the steel tubing that we supply.

If you need additional information, please contact the environment, health and safety group at Southland Tube.
